PORTFOLIO NOW LIVE

Chris Tsungu

Year 11 student at The Stanway School, Essex. Building towards a career in finance and writing the code along the way.

PROJECTS

Things I have built and shipped.

Grade Lab

gradelab.netlify.app

- GCSE revision platform I built from scratch: 12 subjects, 4,700+ flashcards, exam questions and quizzes.
- Spaced repetition, accounts and progress sync, built with React and Supabase.

Client websites

Designed, built and sold to two businesses

- MO BARBER, a barbershop in Colchester (mo-barber.com).
- Brows by Deja, a brow studio in Akron, Ohio.

FINANCE & ECONOMICS

The career I am working towards.

- Aiming for investment banking or quantitative finance.
- Over a year of independent cryptocurrency market research and portfolio tracking.
- Following macroeconomics: inflation, interest rates and central-bank decisions.
- A-levels planned from 2027: Mathematics, Further Mathematics, Economics and Physics, with Chemistry as backup.

EXPERIENCE

Real experience, not just interests.

- TUI: in-person software engineering work shadowing (June 2025).
- Four Springpod programme certificates: Amazon AI & AI Literacy, Amazon Digital Communication, Rolls-Royce Buyer, AXA UK AI Engineer Career Simulation.
- School Prefect and Student Leadership Team member; school library volunteer.
- Left wing / striker: Witham Town U16, Lewisham Borough U16, Ipswich Town Academy trial.
